Team Workforce
Bridging Education and Industry for Success

ARTIFICIAL INTELLIGENCE AND INTEGRATION PROFESSIONAL DEVELOPMENT SERIES

Six Hours. Six Things You Built. One Certificate.

A hands on course that teaches working professionals to configure, build, connect, and automate AI using their own work. No coding.

Credential awarded: Applied Artificial Intelligence Integration Certificate

6 clock hours | Hands on | Up to 20 per cohort | No coding required

Six Hours. Each One Ends With Something You Built.

1 AI Foundations and Safe Setup
A configured workspace and a data rules card for your role.

2 Build Your Own Assistant
An assistant grounded in your own documents, plus a check log.

3 Open Source and Local AI
A local model you ran offline, and a cloud versus local comparison.

4 Connect and Automate
A working three step automation with a human approval step.

5 Build It for Your Job
A draft capstone for a real task in your role.

6 Test, Document, and Present
A tested, documented solution, and your certificate.

Who It Is For

Education, legal, healthcare, manufacturing, finance, human resources, sales and customer service, government and nonprofit, trades and logistics. Professionals from different industries train in the same room, because only the lab data and the capstone change.

Schedules
Six 1 hour sessions, two 3 hour sessions, or one 6 hour day.

Modes
In person in Youngstown or at your workplace, live online, or self paced online.

The credential
Identical in every format. Earned by a scored capstone, not by attendance.

Ohio Employers: TechCred Can Pay For This

Ohio TechCred reimburses employers up to $1,000 per employee per credential, and up to $30,000 per application period. Team Workforce is an approved TechCred training provider, and employers have been reimbursed for Team Workforce training in prior rounds.

The current application period closes at 3:00 p.m. on October 30, 2026.

Public entities are not eligible for reimbursement. Their staff are welcome to enroll at standard tuition.

How To Register

Individuals and employers register by contacting Team Workforce. Employers sending five or more learners can request a private cohort at their workplace or online. Contact Team Workforce for pricing and group rates.
